

Look for the red balloons outside each studio.

The South Valley is a unique area within the urban environment of Albuquerque. It is a semi-rural enclave that is rich in culture as well as birds, cottonwood trees, farms and space. Many artists have chosen this environment to establish their studios. Nineteen of them welcome the public to visit their studios for the first self-organized South Valley Studio Tour.

Cross the river and explore the studios of a wide diversity of artists working in painting, drawing, collage, metal sculpture, ceramics, glass, and more. Come meet the artists, learn about their processes and have a South Valley adventure!
